PROFESSIONAL SUMMARY

Software Developer with 1.5 years of experience building backend and AI-powered applications. Strong in Python, FastAPI, SQL, REST APIs, Docker, and LLM application development.

SKILLS

Languages: Python, C++, JavaScript

Backend: FastAPI, Flask, REST APIs

Databases: PostgreSQL, MySQL

AI/LLM: LLM APIs, Prompt Engineering, Pydantic, JSON

Tools: Docker, Git, GitHub, Linux

EXPERIENCE

Software Developer Intern — TechNova Solutions | Jan 2025 – Jun 2026

- Developed REST APIs using Python and FastAPI.
- Designed SQL queries and integrated PostgreSQL databases.
- Containerized backend services using Docker.
- Collaborated with clients and development teams to deliver production features.

PROJECTS

AI Resume Analyzer

Built an LLM-powered application that extracts candidate information from resumes and converts unstructured text into structured JSON using Pydantic.

REST API Platform

Developed a FastAPI-based REST API with PostgreSQL, authentication, validation, and Docker-based deployment.

EDUCATION

Bachelor of Technology in Computer Science

ABC Institute of Technology | 2021 – 2025
